

# www.PlymouthHub4Climate.org

The Plymouth Hub for Climate is part of a civil society coalition coming together to mobilise mass action around COP26. Because of Covid, we are planning (alongside a demonstration in Glasgow) for a massive march and rally in Plymouth alongside others across the world on 6th November. There will also be a global climate strike day on 5th November.

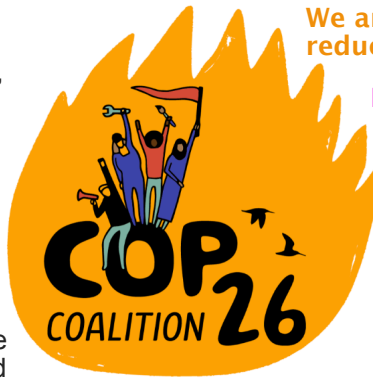

## Climate Justice

Climate activists around the world have been raising the alarm about what has been called "the most exclusive COP ever". Delegates have been left waiting both for vaccinations promised by the UK government and even for information about arrangements. Faced with calls for COP26 to be postponed, the UK government have promised to pay for quarantine hotels.

**But many government delegates, civil society campaigners and journalists, particularly from Global South countries, will still be excluded.**

Even in 'normal' times, there is an imbalance of power with governments of wealthy countries dominating. What will these, even more unequal, climate talks mean for decisions on issues such as climate finance, loss and damage and carbon market rules, and the impact on the world's poorest?

**It's more important than ever that UK activists get onto the streets and call for global climate justice.**

**The UN COP26 Conference is unlikely to agree the amount of emissions reduction required – at least 8% CO2 cuts to global emissions every year towards No Emissions (not Net-Zero!)**

**The Hub4Climate will continue after COP26, bringing together environment and climate groups for action in Plymouth to explain the Emergency and demand that local politicians and businesses act now!**

**We are all activists now – for huge emissions reductions, Green Jobs and Climate Justice!**

**Please join us and do whatever you can.**
